

Company Overview

Company Name: 2391684 Ontario Inc

Owner: Steve Heyink

Estimator/Project Manager: Dan Walker

Established: October 2013

Location: 23584 Industrial Road, Thamesville, Ontario, N0P 2K0

Service Areas: Southwestern Ontario

Website:

Contact: 226-626-2447 / info@drillitutilityservices.ca

What is HDD?

Horizontal Directional Drilling (HDD) is a trenchless technology used for installing underground pipes, conduits, and cables in a minimally invasive and environmentally friendly way. It's ideal for projects requiring subsurface crossings under roads, rivers, railways, or developed areas.

Our Services

- **Utility Installation**
 - Water, gas, sewer, and electrical conduit
 - Fiber optic and telecom cables
 - **Crossings & Boring**
 - Roadways, highways, railways, waterways, and landscaped areas
 - **Project Consultation & Planning**
 - Bore path design, subsurface mapping, and permitting support
 - **Geothermal**
 - Geothermal horizontal loops can be drilled, Less restoration than open cutting. Communication lines – Single or multiple ducts of different sizes.
-

Equipment & Capabilities

- Directional Drill
- One Ton Dump Trucks
- Mini -Excavator for small excavations

- Vac trucks for clean and efficient operations
- Walk beside Plow

Industries We Serve

- Telecommunications
- Energy & Utilities
- Municipal Infrastructure
- Construction & Development
- Environmental & Water Management

Past Contractors

- Entegrus
- Synergy Group of Companies
- Ledcor
- Aecon Utilities Inc.
- Fields Electric
- Advanced Basements
- Various Municipalities

Why Choose Us?

- ✓ **Experienced Crews – Operators with years of field expertise**
- ✓ **Minimized Surface Disruption – Ideal for rural, urban and environmentally sensitive zones**
- ✓ **Fully Compliant – OSHA safety protocols, environmental regulations, and utility locates**
- ✓ **Project Efficiency – Timely, on-budget delivery with minimal downtime**
